Other Warships In Harbor of Toulon Also Damaged.

VALVAGE LAUNCHES SWAMPED

Bodies of Victims Are Horribly Mutilated--All That Remains of Liberte Is Mass of Twisted Iron In Harbor.

Toulon, France, Sept. 26.—While at anchor in the roadstead here, the battleship Liberte, one of the best of France's seafighters of the pre-dreadnought type, was blown to pieces by a series of explosions in her magazines. The number of killed is not yet definitely known, but is variously estimated at between 325 and 400 men and officers.

The cause of the explosions remains a total mystery. Whether the explosion was caused by the first of the series or preceded it remains uncertain, with conflicting testimony. No-

New York, Sept. 26.—As the last of the third day's flights at the Nassau boulevard aviation meet were being concluded, Dr. C. B. Clarke, an amateur, was fatally injured by a fall from his Queen monoplane of the passenger carrying type. He died from his injuries several hours later at the Nassau county hospital.

As he fell Clarke cleared the western fringe of parked automobiles and crashed near a spot where stood Mile. Patriux, Miss Moissant, Clifford B.

Churchill Will Stop The Big Fight

British Home Secretary Says He Will Stop Wells-Johnson Fight.

London, Sept. 26.—The Wells-Johnson fight, scheduled for Oct. 2, will not take place. Home Secretary Churchill stated that unless the promoters abandon the match he will go before a magistrate and have the men bound over to keep the peace. The promoters are understood to have about decided to officially announce that the match has been abandoned.

Diegle Case Thursday

Columbus, O., Sept. 26.—The circuit court in session here set Thursday for hearing the appeal of Rodney J. Diegle from conviction in the common pleas court of being a go-between in legislative bribery. Diegle is now under sentence to three years in the pen, which is suspended by the circuit court until it can pass upon his petition in error.

Broker Killed by Wife.

Denver, Sept. 26.—Charles A. Patterson, formerly a wealthy broker of Chicago, was shot and killed by his wife, Mrs. Gertrude G. Patterson. Charges of infidelity, threatened divorce suit and other marital troubles are given as the cause.

Fish Cost State Less.

Columbus, O., Sept. 26.—Fish contracts let by the state board of administration will net the five state institutions in Columbus an annual saving of more than \$3,000 over the prices heretofore paid by their stewards. The Booth Fisheries company contracted to furnish herring to the penitentiary for \$3.61 per hundred pounds, delivered; to the state hospital for the insane at \$3.86 per hundred delivered; to the institution for feeble-minded at \$5.20 per hundred, delivered. C. B. Randall, discharged last week as steward at the pen, was paying 8 cents a pound for herring, and W. P. Miller, discharged steward at the state hospital, from 7 1/2 to 12 cents a pound for herring. The institution for feeble-minded has been paying 10 cents for herring.

Dies From Accidental Wound.

Marion, O., Sept. 26.—Claude Meley, 20, died as the result of wounds inflicted by a revolver in the hands of Verne Penyard, his lifelong friend. Penyard is prostrated.

URGES BETTER LAND TILLAGE TO KANSANS

WAR CLOUDS HANG LOW OVER TRIPOLI

Turkey and Italy Ready to Fight In North Africa.

Rome, Sept. 26.—There will be war unless Turkey yields to Italy in the Tripoli protectorate dispute. An ultimatum to this effect is being prepared, according to a report given out at the foreign office. Ominous reports were received here and they are apparently authentic.

A dispatch from Port Said says that the Turks have captured the Italian liner Regina Margherita at Merzina. This steamer is one of the fleet of the Navigazione Generale Italiana of Genoa. This is regarded as a casus belli by diplomats, though the reasons for the seizure is not known here. It is also learned that Italians have landed on the coast of Tripoli. If this was done with the acquiescence of the Italian government it would constitute the first overt act on the part of Italy.

Blair Brings Results

West Union, O., Sept. 26.—When Judge A. Z. Blair of Portsmouth, the man who disfranchised more than 2,000 Adams county voters for ballot bartering after the custom of 20 years, arrived here to open court, he heard some glad news. In the recent primaries, the first election since Blair's stupendous house-cleaning, not a cent was spent by any of the candidates, according to their sworn expense account statements filed with the board of elections. In the "good old days"—which Judge Blair proved weren't so good after all—it was customary for \$5,000 to \$25,000 to be spent at every election.

Baseball mania led George Baine, 21, of Cleveland, to make an unsuccessful effort to end his life with a bullet.

President Taft Talks at Conservation Congress.

TWELVE STOPS IN KANSAS

Talks on Divorce Evil at Request of Representative Campbell and Declares in Favor of Uniform Laws. Tells Another Audience That He Will Sign Tariff Revision Bill if Consistent With His Platform Pledges—Also Discusses Trusts.

Kansas City, Mo., Sept. 26.—Insurgent Kansas was viewed by President Taft as he was whirled through three congressional districts. Stops were made at 12 towns.

Mr. Taft ended his speechmaking for the day with his address before the conservation congress, and here he was the one to spring the surprise, for instead of carrying off the preservers of our resources to the abstruse problems of the Alaskan coal fields, he bid them keep their attention to home and see to it that the American farmer was shown the way to increase the products of his lands in pace with the increase of the country's population.

Other speakers told about how conservation was applied to everything from the overflow of the Illinois rivers to the shrimps of the Louisiana bayous. Men from Nebraska and Minnesota told how they increased the productivity of the soil. Delegates from California told about the conservation of minerals and trees, and of the efforts being made to store the water supply and increase the supply of cheap power in the western states. Judge B. B. Lindsay of Denver told of the effort to conserve the children of the cities and farms.

President Taft has never had as large crowds to greet him proportional to the size of the towns, in any state on this trip, as he had in Kansas. In Independence Mr. Taft spoke on marriage and divorce at the request of Representative Campbell. The president came out strong for a uniform divorce law.

Will Sign Right Bill.

The president assured an audience that if congress would present to him the right kind of a tariff revision bill, one consistent with the platform on which he was elected, there would be no difficulty in getting him to sign it. He will reiterate that point at many stops in the state.

One of the president's addresses was upon trusts. His policy is to repeat and to simplify the three self addresses that he made before he entered Kansas on the tariff veto, the tariff board and trusts. Incidentally he is strengthening them a great deal. In his trust talk he said: "I am glad to prophesy to you that new business will acquiesce in these decisions of the supreme court and we shall eliminate that control of prices, that control of business, that exclusion of the independent man."

Mere Lad Is Hung On Fence

Pedestrian Arrives In Time to Save Victim of Youthful Prank.

Wilkesbarre, Pa., Sept. 26.—Thirteen-year-old Joseph Crohona of Edwinstown was "lynched" by two boys and was not rescued until he was unconscious and almost dead. A man walking along the street found the boy hanging from a high fence with a rope around his neck and his hands and feet bound. He was unconscious. After he had recovered he declared that Andrew Lipsky and Edward Bessburn, 15, had caught him and strung him up after declaring that he was the fellow they wanted. They were arrested and held for a hearing.

Stolypin Assassin Will Pay Penalty

Bogroff Executed For Murder of Premier Stolypin.

Kieff, Russia, Sept. 26.—It was announced by the governor general that Dimitri Bogroff, who assassinated Premier Stolypin Thursday, Sept. 14, was hanged in the courtyard of the citadel. The hanging, like all other similar affairs in Russia, was witnessed only by officials of the local government.

Four Dead In Chicago Tenement Fire

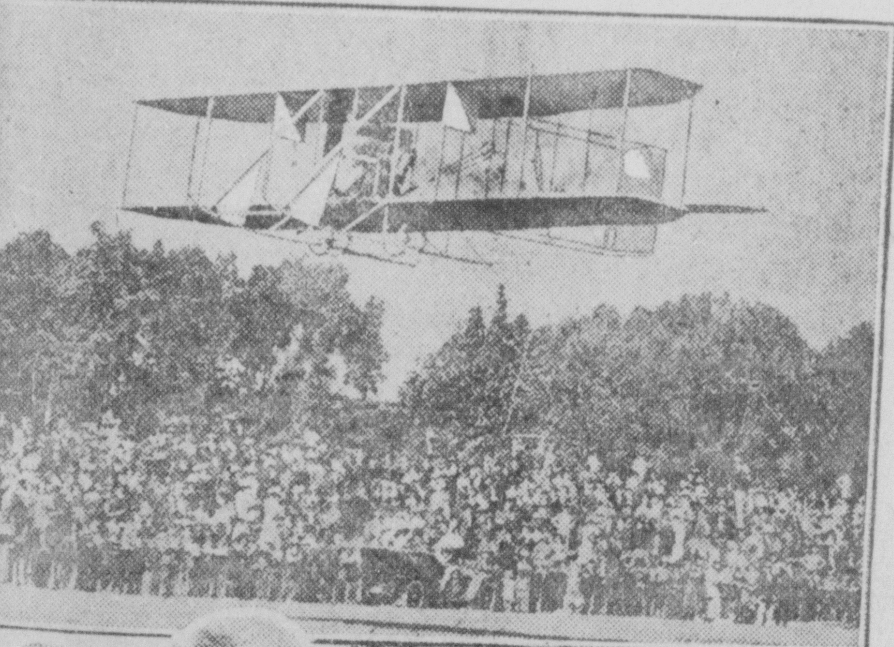

Owners of Chicago Tenement House Accused of Arson and Murder.

Chicago, Sept. 26.—Held pending further investigation, Harry Laski and Samuel Goldstein, owners of a four-story tenement on the West Side, will be charged with arson and murder, the police declare, as the result of a fire which gutted the building killing four persons.

The dead are: Harry Egozitch, 25; Letta Egozitch, 23, his wife; Bessie Egozitch, 2, their daughter; Samuel Alpert, 24, a boarder.

The police charge that Laski and Goldstein fired the building to collect insurance money.

Several Air Men Trying to Fly From Sea to Sea For \$50,000

SEVERAL aviators have entered the contest for a \$50,000 prize offered for the quickest flight from the Atlantic to the Pacific, and starts have been made from each ocean, as the terms of the offer permit the trip to be made in either direction. The first few days of the various flights were not encouraging to the aviators, as each of them had accidents and motor troubles. Robert G. Fowler started from San Francisco, being the first contestant to take to the air. He is shown in the above picture as he kissed his mother goodbye before taking to the air and also in his machine winging his way rapidly toward his eastern goal. The other picture shows Calbraith P. Rodgers standing beside his machine at Governors Island, New York harbor, a few moments before he started on his flight westward.

WRIST BROKEN

DOWN A FLIGHT OF STAIRS

Falling down a steep flight of sixteen steps at the Galligher Electrical Company's office yesterday afternoon, and lighting on the cement sidewalk, was the experience of fifteen-year-old Gladys Jones, of Oakland avenue, and a badly fractured right wrist resulted.

Miss Jones, who has charge of the Galligher office, was up-stairs and the telephone rang. She started hurriedly down the stairs and tripped, falling headlong.

She was taken to her home and the injured arm dressed. She has suffered intense pain, but will be about within a short time. Miss Jones has sold tickets at the Palace theater for some time.

Burns Are Deep
Victim Recovering

Although suffering intense pain from the deep and extensive burns resulting from her clothing catching fire while burning paper in the yard at her home Monday morning, Miss Ethel Irvine is recovering very slowly from the frightful wounds.

All that can be done to relieve her sufferings and heal the burns, which are very deep in some places, is being done, and loving hands are tenderly administering to her comfort and welfare.

One of her limbs near the knee is so badly burned that there is a possibility of the limb being left stiff at the knee joint. It is pleasing news to her friends throughout the county that she will recover.

Edward Ford
Killed in Dayton

Edward Ford, former resident of Fayette county and a brother of Lafayette Ford, of the Edgely neighborhood, was struck by a fast flying motor cycle while in the act of leaving a street car in Dayton a few evenings ago, and fatally injured, death occurring later.

Mr. Ford leaves a number of relatives in this county. He has lived in Dayton for some time. Funeral services were held Sunday.

THE DIPHTHERIA EPIDEMIC
PROMPT ACTION
IS NOW WELL IN HAND

The diphtheria epidemic which broke out in the Drains school one mile east of this city, last week, and which caused the school to be closed and a strict quarantine maintained, is now well in hand, and those who were suffering from the disease have almost completely recovered, and no further outbreak is anticipated.

The disease was of a very mild form, and at no time were any of the sufferers in a dangerous condition. While the State Board of Health pronounced the disease diphtheria, it was little worse than a severe sore throat.

The administering of anti-toxin stamped out the threatened spread as if it had not existed, and the parents of all children who were exposed are greatly pleased with the result. The quarantine is still maintained, and will be for several days yet, until every vestige of the disease has disappeared, and the houses where cases existed are disinfected.

The appearance of a few cases of sore throat among children attending the school one mile north of this city on the Jeffersonville pike, caused the School Board to have an examination made, but no indications of diphtheria were present.

Dr. Brock, who was called to administer the anti-toxin and who investigated the supposed cases at the school north of this city, recommends that parents purchase individual drinking cups for their children, which will prevent the spread of sore mouth, sore throat, and other kindred diseases which are prevalent to an alarming degree in some communities.

Breaks Records

According to the report in dollars, entries, beauty of exhibits, good order, attractions, and number of people attending, the 1911 State Fair broke records. Ohio's Exposition is growing. There were 3,646 more entries this year than last, not counting big increase in machinery displays.

There were 631 more entries in live stock, 2,914 more entries in fruit, and farm products, and 1,439 more entries in Art and Woman's work in 1911 than in 1910.

The ten members of the State Board of Agriculture are allowed actual expenses and get no pay. Many applications for space were refused as the Fair has outgrown the grounds. Races were money-makers and more than paid for themselves. The National Guard police preserved best order in Fair's history. Total Fair receipts above \$90,000.00, which is high-water mark.

The free pass curse was eliminated. Common people always pay to see the Fair, and this year the other fellow paid also. The Board played no favorites and gave a square deal to all.

The public press, farm papers, Governor Harmon, Dr. W. O. Thompson, President of Ohio State University, leading public and business men have commended doing away with free passes.

Lighted Cigar
Ignites Gasoline

E. E. Mithoff, proprietor of a general store at South Bloomfield, Pickaway county, narrowly escaped death in a gasoline explosion caused by a spark falling from his lighted cigar into a can of the fluid.

The spark caused an explosion which licked up 160 gallons of gasoline and the shed containing it. Assistance prevented the fire spreading. Mithoff was badly burned about the hands.

Sues Wife Parents
For \$30,000 Damages

Still another sensational turn was given the famous Joseph D. Leist divorce case in Pickaway county, Saturday, when Leist filed suit against his wife's parents, Jeremiah B. Hornbeck and Theresa Hornbeck for \$30,000 damages for wickedly and maliciously contriving to destroy the peace and happiness of the plaintiff.

Sensational allegations are made by Leist in the suit, of the criminal means employed by the parents in destroying his peace and happiness.

Mrs. Ellen N. Leist, wife of Leist, was ordered committed to the county jail for refusing to answer questions propounded by a notary public in taking her deposition. The woman refused to answer, and was held under \$100 for contempt.

Hog Cholera
Throughout County

It is said that one of the worst hog cholera epidemics in years is raging in Fayette county at present, and that hundreds of swine have succumbed to the disease within the past three weeks, while many herds which have been free from the disease, have been stricken, and the farmers are losing thousands of dollars.

The anti-toxin treatment has proven very successful wherever tried, but the serum has not been manufactured in quantities large enough to distribute to all who desire to have their herds immunized in this manner.

As the herds are attacked by the disease, the hogs which have shown no indication of the disease will probably be put on the market in a great many instances, and some of the infested meat may be shipped to the big markets. The hogs developing the disease on the road.

When hog cholera serum can be secured in quantities as desired, it is the belief that hog cholera will be stamped out of existence, and for this reason the farmers would like to see the state make greater efforts to supply the demand for the serum.

To Look After
Ohio Live Stock

The Ohio Department of Agriculture is preparing a roster of Ohio owners of pure bred and registered live stock. This roster when published will contain the names, classified by counties, of all owners of pure bred animals, giving name of breed, number of animals and post-office address of owner. All owners of such animals are requested to send above information to the Secretary of the State Board of Agriculture, Columbus, Ohio. No charge will be made for this publication.

Mother Retains
Custody of Children

In the hearing of Flora Little, before Judge Patton, in which the woman was charged with contempt of court, having taken possession of her two daughters, who the court had awarded to the husband following a decree of divorce, an amicable settlement was reached, in which the woman was allowed to retain possession of her two daughters, while her former husband, Oliver Little, keeps the two boys.

In the agreement the two daughters are to visit the father once each month.

FORCED TO LEAVE HOME.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Is Your Stomach
Out of Order?

After eating are you troubled with belching, heartburn, or pains or distress in your stomach? Too much depends upon your stomach to allow such a condition to continue, and the quicker you change the condition the better for your general health.

A weak stomach means a debilitated body and weakened mental power. Your natural digestive secretions must be restored and the organs of digestion stimulated into natural, healthy action. The pleasant, surest and quickest way to do this is to take

Steel Range Agents
Make Appearance Here

The steel range gang, selling steel ranges at a greater cost than regular dealers, and who four years ago found plenty of suckers in this and adjoining counties, have appeared in this city and commenced canvassing the county Tuesday.

There are three of the men, each driving a span of mules to a wagon. The plan is to drive up to a man's residence, exhibit the wonderful (?) range and talk him into buying ere he is aware of it. It is said that more than one of those who purchased steel ranges four years ago grew sick of their "bargain" long ago.

These men have just finished canvassing in Madison county, it is said, where they did not always receive the best welcome in the world.

They leave tomorrow for their homes in Florida, taking with them their mother, Mrs. Mary Ellis, who has been visiting her daughter, Mrs. Moore, to spend the winter.

More Sewer Troubles; Church Basement Flooded

Property owners who tapped the Sharp private sewer which extends from the Worthington building to the creek, running down the alley which starts between the residences of George Jackson and S. W. Cissna on Main street, are up in arms. These citizens have been waiting patiently until the Market street sewer was completed so that they could abandon the old sewer when it became entirely useless, and tap the new sewer.

The old sewer has become so clogged up that more than one cellar is being flooded with the unwholesome sewerage which must find an outlet. To add to the trouble, the sewerage is backing into the basement of the Presbyterian church, and a meeting of the Board of Deacons was held Monday night to take the matter up. Nothing definite was done, but it was decided to call a meeting of the persons who have taps on the old Sharp sewer, and a meeting has been called for tonight, to take place at the Cherry Hotel, and the question will be taken up and if possible some means of ridding themselves of the problem now confronting them will be devised.

The stench arising from the basement of the Worthington block is increasing again, and the entire Sharp sewer is now in a very bad condition, and a menace to public health, it is claimed.

THREE ARE BADLY INJURED

RIGS COLLIDE

IN WRECK ON COUNTRY ROAD

At a late hour Monday night Mr. Arthur Dowler, wife and ten-year-old grand-daughter were very painfully injured when their buggy collided with that of two young men who had stopped in the middle of the road.

Mr. and Mrs. Dowler and their granddaughter were on their way home from Buena Vista, where they had attended a medicine show, and when near the residence of Lewis Moore, their rig struck the other rig and both buggies were totally demolished. The Dowler horse striped itself of harness and ran home, leaving the three occupants of the rig and the remains of the rig itself in a confused heap at the roadside.

Mrs. Dowler suffered the worst injuries, receiving a broken wrist, and a bad cut over the right eye, together with numerous bruises. The little girl was also painfully cut and bruised, while Mr. Dowler was bruised, and one leg almost almost broken, causing him severe pain.

Neither of the two young men were injured beyond bruises. The Dowler family's escape from more serious injury or even death, is remarkable.

Club News.

With the coming of cool Fall days club women are resuming their studies and entering upon the new year's work.

The Daughters of the American Revolution found their first meeting at the home of Mrs. Robert Howat Monday, delightful and the 1911 programs attractively arranged for both study and pleasure.

This year the committee on year book, Mrs. Kate Miles Baker, Mrs. Lizzie Hegler Daugherty, Miss Emma Jackson, have interwoven with the American history, which is the backbone of all study with these loyal daughters, connecting links with other nations. During the winter the influence of the Scotch, the Irish, the Welsh, the Russian, the French, the Austrian, the German and the Italian nations in American progress and their present development in America will be taken up in programs, which also introduce the music of the nation under discussion.

It is expected that the year's work will be one of the most interesting in the D. A. R. calendars.

Monday afternoon's program introduced the "Scotch in America." After the singing of "Blue Bells of Scotland," Mrs. Mary Briggs presented the subject in an able paper.

There were two charming musical numbers, Mrs. Lizzie Daugherty singing the Scotch ballad, "Laddie," Mrs. Ellis Daugherty accompanist and Mrs. Sina Murray playing "Tam o'Shanter."

After the program a delicious reception was served.

Assisting Mrs. Howat as the afternoon's hostesses were Mesdames W. A. Harlow, Maude Harlow Coffman, A. S. Ballard, T. T. Beatty and Miss Rose McLean.

The guests from out of town who enjoyed the affair were Mrs. Herbert Maynard, of Waterloo, Iowa; Miss Emilie Pruess, and Mrs. Charles Baker, a Williamsport daughter.

Chas. Phillips Temporarily Discharged

Charles Phillips, fifteen-year-old son of James Phillips, charged with having set fire to Charles Mark's big barn, was tried before Judge Patton Tuesday morning, and after nine witnesses had testified for the state, was temporarily discharged, but under the decree of Judge Patton, will continue to remain under the jurisdiction of the court, and if at any time he fails to observe the laws, he will be brought in and dealt with as becomes the enormity of his offense.

The state was represented by Prosecuting Attorney Pope Gregg and Attorney D. B. Sharpe, of the State Fire Marshal's office, while deputy state fire marshal, W. A. Fishinger, who caused the lad's arrest, was present.

The case lasted from nine o'clock until 11:30, and nine witnesses were examined. The circumstantial evidence against the Phillips lad was very strong, but none of the witnesses gave testimony that was very damaging against the lad. The principal features brought out was that the boy had ridden hurriedly from the barn a few minutes before the fire, and had watched the fire from a distance part of the time. The boy himself was not put on the stand, and without testimony in rebuttal the case was submitted after short arguments had been made by Attorney Frank Chaffin, on behalf of the lad, and Attorneys Gregg and Sharpe.

Judge Patton then gave his decision, stating that the testimony did not prove conclusively that the lad had fired the barn, and that because he was addicted to the cigarette habit (a thing mentioned by the state's attorney) was no evidence of his guilt, but owing to some features of the case he deemed it advisable to suspend him indefinitely, but to retain jurisdiction over him to insure future good behavior.

At least one of the state's most important witnesses was absent owing to illness. It will be recalled that the Phillips family lived on the Mark farm at the time the barn was destroyed by fire, and that suspicion pointed toward the boy as the guilty party purely through circumstantial evidence, and a failure to convict was heralded with joy by his family and friends.

The football season opens Saturday afternoon when the W. C. H. High school is scheduled to play Greenfield. At that game the team will be the one selected for the season from the following candidates: James McDonald, captain; Robert Cullen, Pitt Fitzgerald, Elliott Jefferson, Samuel McDowell, Earle Michael, Roy Tharp, Chas. Willis, mgr.; Burnett Hyer, Perry Allen, Walter Thompson, Ed Williams, Robert Rothrock, John Donohoe, William Frayn, Bennie Jones, Earle Horney, Donald Moore.

WORK AT A SNAIL'S PACE

"CHERRY HILL"

SCHOOL BOARD DISSATISFIED

Work on the new "Cherry Hill" grade school building is still progressing at a snail's pace, and the walls are barely finished to the top of the first story.

Under the contract the new structure is to be finished by November 1st, but from present indications it will be far from finished at that time.

The building was commenced several months ago, and for some time work has been almost at a standstill, and the reason for this is said to be the lack of stone, which was ordered in plenty of time, but not shipped, and the work of laying brick was held up for weeks because of this.

The delay has caused much restlessness in the Board of Education, it is said, which has been desirous

that the work progress with greater rapidity, and it is hinted that the contractor has been called upon to explain the reason of so much delay upon more than one occasion.

The structure so far as completed, shows great care and fine workmanship, and the Board of Education is pleased with the building, which, when finished, promises to be a splendid one.

There seems to be a question about the building being finished by November 1st, and next Spring may see the actual finish of the structure, if the present rate of progress is continued.

Nothing new has developed in connection with the new High School building, and the architects are still taking their time to placing the finishing touches on the plans and specifications.

WHAT IS THE END.

It is just as well, perhaps, that the people of this and other nations pay as little attention as they do, to the activities of the naval authorities in the building of huge battleships in times of peace.

It is probable that if the people were not so completely occupied in peaceful pursuits in this, the greatest era of man's prosperity, there might be considerable opposition to the waste of time and money in the building of immense battleships in what appears to be a mere race between nations to outstrip one another.

The New York Evening Post has published a few statistics and they are interesting and really appalling.

Consider the magnitude of the work now going on on all sides and then give if possible any good reason for the race now on in such intense earnest.

Here is what we may learn from the figures:

Since the new American Dreadnaught Utah arrived in port to join her sister ship, the Florida, now nearing completion at the Brooklyn navy yard, naval men hearabout have been discussing with renewed interest the relative position of American sea-fighters as compared with the navies of the other nations. While experts concede that Great Britain has the largest aggregate of warships, with either Germany or the United States second, it is asserted that the two new dreadnoughts of the United States outrank in size and strength anything afloat.

The British battleships Lion and Orio will excel the two newest American ships, but neither of these is as yet in service. Germany also has a number of powerful dreadnaughts in course of construction, but the largest German ship in commission is of less tonnage and efficiency than the Utah and Florida, which have displacements of 22,000 tons each, as compared with the original dreadnought of 18,000 tons. They take the lead over the Delaware and North Dakota, 20,000 tons each, which heretofore were the prize ships in the American navy. Besides leading the ships of all the great powers in size, they also bring Germany and the United States nearer together in the race for second place among naval powers.

Among the experts, the original dreadnought has become the accepted unit of sea-fighting efficiency. Counting it as a unit of 100, the American battleship Delaware and her sister ship, North Dakota, have an efficiency ratio of 110 each, while the Florida and Utah have a ratio of 125 each. These ratios for American dreadnought ships aggregate 670, as against an aggregate of about 700 for Germany. So Germany and the United States are separated by only a few points for position of second, when the dreadnought unit of fighting strength is the basis. On ships below the dreadnought unit, the scales are turned in favor of the United States.

The super-Dreadnought New York, whose keel was laid the other day, will outrank in tonnage anything thus far built or under way in England and Germany. Her tonnage will be 27,000. The largest British ships under construction are those of the King George class. 25,000 tons, and the largest of the new German ships building are of 23,000 tons. The British designers however, are planning the Queen Mary, 29,000 tons. The New York represents the largest warships being built, while the Utah and Florida are the largest in the service of any of the great nations.

One is compelled to gasp and ask when will it end and and what will end this mad race.

POETRY
FOR TODAY

BELIEF.

If I were asked what I believe, I could not help but say,
The gentle and the simple creeds of boyhood's yesterday;
The tender faith in Bible things, the truth, the way, the right,
The golden rule to live one's life according to the light;
And everywhere the thought of God, that we are everywhere
The children of one Father's love and of His heavenly care.

If I were asked what I believe, I know my thoughts would go
Back to a little child at prayer in the soft evening glow;
And I can think of nothing else so beautiful, so sweet,
As prayer beside a mother's knee who tried to lead our feet.

In paths of righteousness and truth where none could go astray
From that dear life of simple trust in childhood's yesterday.
If I were asked what I believe, I'd have to say, as then,
A simpler faith in God's commands, a manlier trust 'mong men,
A clear and more abiding course toward that which men might call

The straight-out-from-the-shoulder faith of Peter and of Paul;
The teachings, most of all, that came to us in Sunday school,
Way back in little childhood's land, the land of Golden Rule.

Nearly every grocer sells it—nearly everybody eats it

Fall Fatal to Clark

(Continued from Page One.)

Harmon and Mrs. Ralph Johnstone. The forward part of the machine lay in a crumpled heap with the tail parts sticking in the air.

This was the first time the French aviator, Mlle. Dutrieux, ever had seen a bad flying accident, and the sight unnerved her. Mrs. Johnstone ran out to the wreck and lent a hand as the ambulance came to a stop beside the wounded flyer, Clarke, a tiny man with a straggly goatee, sat amid the wreckage unconscious. Blood was flowing from many cuts about his face, head, neck and limbs.

Hitchcock to Take Ride.

The aviator was killed when he tried to bank his machine to the right while ascending and with the wind behind him. Down crashed the monoplane, in a fall that began as a spiral and ended as a straight dive, nose on. Clarke's machine landed in the automobile parking space at a spot where, on the previous afternoon, every inch was crowded with cars. He fell just a few moments after the megaphone man had announced that today Postmaster General Hitchcock would go aloft with Captain Beck and personally carry the aerial mail to Mineola. The postmaster general saw the aviator fall. Clarke for some time had been a trick bicycle rider and he said that he was a graduate physician. He decided about eight weeks ago to take up aviation, and was a pupil of the Queen aviation school at Belmont park. He made his first flight a few weeks ago and was to have started out today in the machine in which he fell to death. No. 13, to try for his pilot's license.

EVERYBODY'S
BIBLE QUESTION
BOX

YOUR BIBLE QUESTIONS WILL BE ANSWERED IN THESE COLUMNS, OR BY MAIL IF SENT TO THE EDITOR OF THIS JOURNAL

Q.—Do we properly understand Mathew xxv, 46 and Mark ix, 43, 48 to teach that the finally impenitent will live eternally? If so, then will not sin continue eternally and in that event would not God be responsible for the eternal continuance of sin?

Answer.—The Lord declared through the Apostle: "The wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord." (Romans vi, 23.) Sin results ultimately in death, and death means the opposite of life, and none get eternal life except by and through the merit of Christ Jesus. So the Scriptures declare that the "righteous shall go away into eternal life." It follows then that none except the righteous will receive eternal life, and that the unrighteous will be destroyed. The greatest punishment known to the laws of our land is depriving one of life. Destruction of life is punishment of the severest kind, and the Scriptures show that the punishment of the wicked will be to deprive them of life—destroy them. (Psalm cxlv, 20; Acts iii, 23.) The Scriptures cited by you agree with this. We quote from the Emphatic Diaglott, recognized amongst scholars as one of the best translations: "And they shall go forth to the everlasting cutting off; but the righteous to everlasting life."

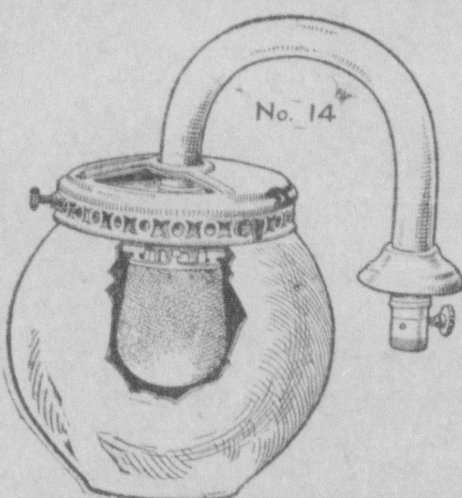

Air Navigation Belongs to
the Civilization of
the Future,
War to the PastBy WILLIAM RANDOLPH HEARST,
Publisher

THE CONDUCT OF WAR BELONGS TO THE BLACK BARBARISM OF THE PAST. THE NAVIGATION OF THE AIR BELONGS TO THE BRIGHT CIVILIZATION OF THE FUTURE, A CIVILIZATION ON THE BARE THRESHOLD OF WHICH WE REVERENTLY TREAD.

War might have use for the arts and sciences of civilization, but a HIGHER CIVILIZATION CAN NEVER CONSENT to lend its agencies for the PERPETRATION OF THE CRUELITIES AND BARBARITIES OF WAR.

I believe that a very few years will see the armies and navies of the WHOLE WORLD reduced to form merely disciplined forces of INTERNATIONAL POLICE, and the duties of these forces will be not to make war, but to keep the PEACE.

In those happy days of universal peace and international police protection the military departments of our government may have use for an aeroplane division, but only as a sort of AERIAL BICYCLE SQUAD.

Take Second Game of Washington Series After Batting Rally.
Washington, Sept. 26.—Cleveland captured the second game of the series here, 3 to 2, with a lively batting rally, coupled with a costly error by McBride in the seventh inning. Hughes was invincible with the exception of this chapter. Blanding also pitched good ball and pulled himself out of several tight holes.

French Ship Was Wrecked

(Continued From Page One.)

body can tell whether the customary order to flood the magazines was ever given, or, if given, was already too late.

All that remains of the *Liberte* above water is a misshapen mass of twisted iron work showing one of the great steel turrets, with two giant guns pointing toward the sky.

On board the battleship *Democratie*, it is reported, 20 were killed and 50 wounded by flying fragments of the wreck. The battleship *Republique*, which lay close to the *Liberte*, was badly damaged by the explosion and there were several casualties on board of her. Further, as soon as an alarm was sounded on the *Liberte*, many boats both from the shore and from the other warships went alongside to give assistance. What the explosion came many of these were capsized or shattered and a rain of projectiles fell upon the rest. It is inevitable that many lives were lost in this way.

Ferry Passenger Gives Alarm.
According to one story told here, a passenger on a ferryboat first spread the rumor of a fire aboard the *Liberte*. The people soon began rushing toward the harbor and soon a terrific explosion was heard which shook all the houses in Toulon and shattered thousands of windows. The people immediately rushed into the streets and workmen quit their jobs. Everyone in the city was at fever heat.

The fire was making rapid progress and signals were made to the other warships in the harbor that the vessel was on fire. Boats soon left the sides of these ships and rushed over to the *Liberte* to assist in the work of rescue. The crew of the *Liberte* soon saw the danger of an explosion of the magazines and began jumping overboard. Many of these were picked up by boats from other vessels.

There were several small explosions when suddenly, while the work of salvage was very actively progressing and when it was thought that all would be saved, there was an immense gush of flame which was followed by a terrible sight. There was a tremendous explosion and projectiles of all sorts and broken iron were thrown towards the sky and in all directions, many falling on the surrounding battleships and causing serious damage to the battleship *Republique*. The *Liberte* was blown asunder and sank amid a terrific turmoil, carrying down with her a number of small craft which had rushed to the rescue of the crew. All dis-

posed losses in dead and wounded from the exploding shells and flying debris when the magazines of the *Liberte* let go. No statement has yet been made as to the number of men thus lost.

Later fire was discovered on board the battleship *Patrie*, but the vessel was immediately hauled into the drydock and the basin flooded.

Nicholson Sends Condolence.

Washington, Sept. 26.—Rear Admiral Nicholson, who is acting as secretary of the navy, sent instructions to Lieutenant Commander Henry H. Hough, attaché of the American embassy at Paris, who is now at Brest, to return at once to the capital and personally, on behalf of the secretary, convey a message of regret and condolence upon the destruction of the French battleship *Liberte* and the loss of life of the seamen. According to officers of the navy the *Liberte* explosion is the most disastrous naval accident in time of peace. From the dispatches received here it is believed that a fire broke out on board which caused the explosion of the magazines before they could be flooded.

peared amid cries and shrieks of despair.

Launches Come to Rescue.

A number of steam launches and tugs soon gathered about the wreck of the battleship *Liberte* for the purpose of cutting holes through decks and side plates in the hope of rescuing any men who might be left alive within the vessel. Many dead bodies have already been taken from below the decks. One quartermaster was found dead and his body entirely denuded as a result of the force of the explosion. His body had been blown upward and had lodged on the ladder which leads up the mast. Many fragments of bodies which will never be identified were brought ashore wrapped in tarpaulins and were turned over to the naval authorities for burial.

Of 50 sailors who were treated at the hospitals ashore, 20 have already died and more are expected to die. All were terribly wounded. It is reported that the crews of every warship anchored in the harbor saluted.

WHO?

Will Win the Piano---That is the Question

On Every Lip These Days

FOUR MORE DAYS WILL DECIDE

The Winner---Candidates Are All Busy on Last Vote Offer

The Big Contest will soon be a matter of history, but four more days remaining. At that time the winners of the many prizes will be known. Never has more interest been shown in a contest in this section of the state. The pianos are the best that could be secured and the candidates have shown their appreciation of the valuable prize and have each striven to win them.

The zeal with which the various candidates in the contest are endeavoring to secure subscriptions almost amounts to desperation. Although several have declared that they are determined to be victorious, no one has the temerity to say that the result can be foreseen even now. Such, however, is the case and the next four days will see some of the most sensational hustling and balloting that has occurred at any time during the great contest.

This week's offer for subscriptions will enable any good hustlers to work wonders and from all accounts some big surprises are going to be sprung that may make the leaders sit up and take notice.

From Thursday, September 21 and ending with the close of the contest, Saturday, September 30, at 8 p. m. extra votes will be allowed as follows:

For \$15.00 in subscriptions, 7000 extra votes will be given.
For \$30.00 in subscriptions, 20,000 extra votes will be given.
For \$50.00 in subscriptions, 40,000 extra votes will be given.
For \$75.00 in subscriptions, 75,000 extra votes will be given.
For \$100.00 in subscriptions, 120,000 extra votes will be given.
For \$150.00 in subscriptions, 200,000 extra votes will be given.

SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy. The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't neglect your hair. Get a bottle of Wyeth's Sage and Sulphur today, and notice the difference after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Brown's Drug Store.

WANTED—1000 men and women in Washington to publish their wants in this column for three days at the small cost of 1 cent per word for the entire time. It will bring the answer.

Nothing is ever "Lost" in Washington until after an advertisement in the classified column fails to recover the article to the owner. And rarely fails.

People who allow property to remain vacant, things to be lost, or articles for which they have no use to remain on their hands are standing in their own light. A few words in the classified column will convince the most skeptical that this means of communication with the people is "hummer." It brings results.

The classified column is certainly the place to make your wants known to the people of Washington and environs.

THE WOMAN WHO CRAVES WHAT SHE CALLS 'LIFE'

WHEN A WOMAN demands what she calls "life," she has put her feet on the top of the smoothest and steepest incline the world knows anything about.

That longing for "life" and excitement is what started Evelyn Caine Romadka down the incline, and her gait has never been surpassed in the annals of unfortunate women.

Ten years ago there lived in Oshkosh, Wis., a grocer named Caine. Of humble circumstances, he was forced to take his daughter Evelyn into his store as a clerk, and when she made change and waited on customers it was not with a mind content with her surroundings; she wanted "life." Undoubtedly, she had read the erotic novels of the time, and "life," as seen through their pages, meant dancing lights, wealth, the homage of many men, diamonds, champagne, and automobiles.

Her beauty attracted a Milwaukee millionaire named Charles J. Romadka, an honorable man, who married her and took her home with the intention of shielding her from just such temptations as her silliness craved.

She had a beautiful home, all the pomp and power that came to the wife of a generous millionaire, and as if these ties were not enough to bind her, the protecting providence that cares for the Evelyn Caines, brought her a baby girl.

But she wasn't satisfied; she wanted the gaiety of a larger city, and secured her husband's permission to go to Chicago, on the pretense of some pressing errand. He made her an allowance of \$50 a week, and paid all her bills without question, but the friends she met in Chicago spent that much in an evening without blinking, and it order to obtain more money she became a thief.

It was not difficult to find a way to steal. Her own riches had frequently tempted nursemaids to steal from her shamelessly, and these losses suggested that she might earn money in a similar way. She tried it, and it was so easy to secure employment, remain a day, and walk away with a handful of diamonds that there remained only one obstacle to her career, she must have some one to dispose of her plunder, and she found that person in a negro ex-convict, named Albert Jones.

Her association with a negro ex-convict was the culminating circumstance that led to her exposure a few months later; but it should not be surprising. She was a long way down the incline when her need of an accomplice arose, and honorable men do not assist women in turning stolen plunder into cash.

At last she found the means of enjoying "life." With her husband and baby and good name forgotten, she became the associate of questionable friends in Chicago, and as she drank wine and danced and associated with men whose intentions were never honorable she imagined she was living the fairy dreams of her girlhood.

Fortunate is he to whom the fiddler presents a bill when the dancing has just begun, and Mrs. Romadka had this good fortune. She was arrested early in her career as a "Raffles," sent to the penitentiary at Joliet for an indeterminate sentence of one to twenty years, and while she was there her husband secured a divorce. Two years later she was released.

"I have had my lesson," she cried when she left the prison door.

This was less than a year ago and one evening last week three Kansas City residents two men and a woman were invited by a handsome woman named "Graves" who was stopping at their hotel in Chicago, to go on a slumming tour with her.

The next day they were found unconscious and "Mrs. Graves" and more than \$900 in money and jewelry were gone.

The two men and the woman told the police they had been led to visit opium dens, and, after supping at a Chinese restaurant, became unaccountably drowsy as if sleeping potions had been placed in their drink.

They told the police that "Mrs. Graves" had posed as a dashing widow, unacquainted with life in Chicago. When they saw Mrs. Romadka's picture in the Rogues' Gallery they at once identified it as that of "Mrs. Graves."

"Mrs. Graves," according to the police, was none other than Evelyn Romadka, born again.

When Mrs. Romadka was accused of theft two years ago she made a confession of her crimes and said she couldn't help herself; that she was at the mercy of a personal devil.

Psychologists, hypnotists, criminologists and other wise men who run a pin through a human soul and study it under a microscope, became greatly interested in Mrs. Romadka's defense and handed down many wise opinions.

One said that she was possessed by what is known as the "Ethiopian soul."

But whatever the cause, there is room for argument in this contention: If Evelyn Caine had married a poor man, and had had babies and worries and such a struggle with hardship and poverty that a silver dollar would have assumed in her vision the proportions of a cart wheel, she would have been a better behaved woman.

If she had been Mrs. Romadka's

char-woman, instead of Mrs. Romadka, she would have committed no crime greater than that, condoned by juries and judges, of going through her husband's pockets at night, and the little she found there would have gone for necessities for her family.

Trouble and deprivation are good balance wheels; the unfortunate few who lack them can't hope to escape making fools, or something worse, of themselves.

If you have a duty, an obligation or a burden, don't despise it. It is what is keeping your feet on the earth and making you sane.

Evelyn Romadka has all the natural desires of a woman, with none of the true woman's restraint. The students of human nature have only to watch, and they will note that all such cases come from the rich and the idle.

HIS GARDEN.

"How's he getting along with his garden?"

"Splendidly. He picked one tomato out of it yesterday."

NOTHING AGAINST THE RING.

Tom—When you broke the engagement did you return the diamond ring he gave you?"

Edith—Certainly not. I don't care for Harry a bit now, but my feelings have not changed toward the ring.

SELIG Kit Carson's Wooing SELIG

Of all the picturesque stories surrounding the lives of our early frontiersmen, none stand out more prominently than that of Kit Carson's romantic marriage to the half-breed Indian girl who had saved his life. This incident has been used as the theme on which this story is based.

The Wasp.

This is an absorbing story of transgression, conscience and remorse, carrying with it a strong moral. Splendidly acted by a superb company.

Don't miss the Vaudeville this week. It is better than ever.

Stranger Hangs Himself.

Cleveland, O., Sept. 26.—The police are trying to identify a man whose body was found hanging in Rice's woods. Binder twine tied around his neck and attached to the limb of a tree had caused his death, apparently about three days ago.

A SERIOUS DEFECT.

The ambitious platform of the Progressive Constitutional league, which has been adopted by organized labor and the grange in this county, contains one fundamental defect which should be carefully considered before too many are carried away with the prospect of reforms it promises to bring about. The defect is that it will attempt to enact too much specific legislation into the new constitution.—Salem News.

Wook Wife For Horse.

Lisbon, O., Sept. 11.—Arraigned in probate court on a charge of hitching his wife to a plow and beating her because she failed to pull it, Jacob Zimmerman of near Wellsville pleaded guilty and sought the mercy of the court. He was sentenced to 90 days in the workhouse.

DISTRICT FIRST PRIZE

\$200 Bed Room Suite

In Circassian Walnut, consisting of one standard sized Dresser, one Chiffonier with five large drawers, and one Bed with the new style roll top head and foot boards.

This suite would adorn a palace. It is a prize that will stand the test of time. It will ever be a thing of beauty, fit to hand down to children and grandchildren as an heirloom of Twentieth Century art.

This prize can be seen at the store of The Fayette County Hardware Co., where it was purchased. This firm's well known reputation for square dealing is a sufficient guarantee that this beautiful prize is all that is claimed for it.

DISTRICT SECOND PRIZE

\$40 HAVILAND CHINA DINNER SET

This eighty-piece genuine Haviland China Dinner Set, which was purchased of S. S. Cockerill & Son, will be awarded as the District Second Prize.

Haviland & Co., the makers of this beautiful ware, and S. S. Cockerill & Son, the local dealers, guarantee each piece in this set to be absolutely perfect in every way. Each piece bears two stamps. The green one shows that the body of the article was made by Haviland & Co., while the red stamp is a guarantee that the decorations are also a work of this wonderful factory. When examining these dishes please note that they bear both the green and red stamps.

This ware is beautifully decorated in gold, and each piece has been kept free from water so that the monogram of the owner may be put on if desired. First Grand Prize

\$600 Schaff Bros. Player Piano

This beautiful Player Piano will be given to the person having the largest number of votes in the Register-Herald's Great Voting Contest, and was bought of J. A. Smalley, who has the instrument on exhibition at his storeroom on West Court street, next door to the T. C. DeWees Photo Gallery. A cordial invitation is extended to all to call and examine this beautiful prize.

This player piano carries with it an unlimited warranty and is the most simply constructed player on the market, one lever acting for the tempo, start, stop and rewind, making it possible for a child to operate it and play any style of music, from ragtime to the most classical.

The tone of this instrument, its volume of sound and artistic workmanship have earned for it the distinction of being one of the finest player pianos ever brought into Fayette county. Call at Smalley's store on West Court street and examine this prize.

2nd Grand Prize

\$265 Link & Son Piano

This piano, also made by the Schaff Bros., of Chicago, Ill., and Huntington, Ind., has no equal on the market for the price. The people making this piano have been located in Chicago since the year 1868, since which time their financial rating has been unsurpassed by any of their competitors. They were the first firm to make upright pianos in Chicago after the great fire of 1871, and a steady improvement has marked the quality of their product ever since.

This piano was purchased from J. A. Smalley and is on exhibition at the storeroom next to the DeWees photograph gallery. The many excellent features of this instrument, combining a double veneered mahogany case, light, perfectly balanced and sympathetic action and soft mellow tone make it one that anyone who is a lover of music would be proud to own.

DISTRICT FIRST PRIZE

\$125 Diamond Ring

This ring was purchased at the store of C. A. Gossard & Co., who guarantee it to be a pure and flawless stone. If C. A. Gossard & Co. added not one word of assurance, this beautiful little gem would speak for itself.

The perfect color, correct cut and proportion give it the scintillating brilliancy that comes only in the perfect stone. It is a gem no better than which adorns the hand of royalty—it is a prize that any young lady may well strive for.

To the energetic woman who wins it, this beautiful gem will be as a legacy in the bank. Its value is eternal and can never grow less. The person who wins this prize is not required to take the ring which we have selected, but CAN HAVE THE CHOICE OF ALL \$125 DIAMONDS in the store of C. A. Gossard & Co.

DISTRICT SECOND PRIZE

\$75.00 Diamond Ring

This stone, purchased of W. H. Hettesheimer, Jeweler, is not quite as large as the diamond offered as the District First Prize, but it is a good sized gem, perfect in color and absolutely flawless. It has a Tiffany setting, and will make a splendid prize for some worthy young lady.

W. H. Hettesheimer guarantees this ring to be exactly as it is here advertised, and the person who wins it can have their CHOICE OF \$75 DIAMONDS IN HETTESHEIMER'S store.

Young ladies, here is a chance to secure that coveted diamond. Perhaps you may never have the opportunity of getting another. Some person is going to be the proud possessor of this valuable prize. Why not you? It will not cost you a cent.
